| CONNECTICUT | St. Francis Hospital | Hartford | | | 0 | 0 | 0 | 0 | | 17-'18 Season: Assistant PD was supportive, but currently no NFP residents '17-'18 Season: Technically 'Catholic' program which prescribes birth control in theirclinic. PD however said that they are supportive of NFP-only residents. PD said during presentation that he feels that we should go to outside rotation to counsel for terminations but we can opt out if we chose. At least one resident expressed dissatisfaction with the restrictions in family planning services because the hospital was Catholic. 2015: Catholic hospital with a big orthodox jewish presence. A lot of the patients are very conservative so the PD understood my beliefs. He was willing to work with me and even encouraged research in the area of NFP. |

| DC | Washington Hospital Center (Georgetown) | Washington | 0 | 0 | 0 | | | | | 2015: no longer Georgetown, this program now serves an amalgamation of three hospitals and lays emphasis on ACOG's way of doing this, including prescription of contraception. An NFP-only interviewee was told by then-current residents on interview day that not prescribing contraceptives "would not work." Culture seemed to confirm this. No info from PD. |

However, the PD is not wild about the idea of NFP-only residents. Still, there is a current NFP-only PGY3 who loves the program, and Dr Naomi Whittaker graduated here and loved the program also. Dr Whittaker is very open to talking to anyone interested in OBGYN, so feel free to contact her! (If you need her contact info, contact website administrators!) 2018: Very Catholic hospital that follows strict ERDs. You are under no pressure at all practicing as a faithful Catholic. Our main resident clinic does not prescribe any contraception. |
| ILLINOIS | Loyola University Medical Center | Maywood | | | | | | | | 2015: Very pro-abortion program (abortion month at Planned Parenthood is opt-out) 2015: The PD was not very supportive, but there was a faculty member who practiced the Marquette Method with her patients and faithfully practiced as a Catholic. |

Other residents seems open to having an NFP-only resident. Dr Theresa Stigen was an NFP-only resident here 2004-2008 and later completed Napro Fellowship. I know when NFP med student interviewed last year PD said she thought they could work something out, but from just spending a lot of time in the program I'm wondering how they really would be able to make it work. Great compassionate faculty and residents who care about patients and just happen to have different views than us, so maybe they would be able to respect where we are coming from if presented in the right light. Overall though, I think it's a great program and I get along with the residents very well. It's a pity that I think it would be very hard to be NFP only here. |

| MISSOURI | Saint Louis University (SLU) | St. Louis | 0 | 0 | 0 | 3 | 0 | 0 | 1 | 17-'18 Season: Very recepitve to NFP-only residents. Excellent program. No BC or Sterilizations in the hospital (except for what is approved by the ethics comittee, which seems to be more than what ERDs allow). Separate clinic days dedicated for LARCs and NFP so you would have the option to avoid LARC clinic and work NFP clinic. |
| MISSOURI | Mercy St. Louis | St. Louis | 2 | 1 | 2 | 0 | 1 | 1 | 2 | 17-'18 Season: Multiple NFP-only residents have graduated from here. Napro Dr Gavin Puthoff is a private attending here as of 2017. In 2012, there were 6 NFP-only residents in the program. See article: http://archstl.org/files/nfp_st_louis_review_3-9-2012.pdf. The program director however is growing in her support of termination training. 2 residents graduating this year are going on to NaPro fellowship. Currently 2 other NFP-friendly. | NEW JERSEY | New York Medical College at St. Joseph's Medical Center | Paterson | | | | | | | | 17-'18 Season: Appear to go step-in-step with the bishop. With a more liberal bishop in the past they have performed more controversial procedures. However, current bishop is extremely conservative. They do not even counsel for birth control because they do not prescribe it; they refer to another provider who can both prescribe and counsel. Asked if I would be okay with book-learning about contraception. Residents seem fine with this state of affairs, say that tubal ligations and contraception is easy to learn about and that they don't feel deprived by the hospital being Catholic. |
| NEW JERSEY | St. Peter's University Hospital/Rutgers Robert Wood Johnson Medical School Program | New Brunswick | | | | | | | | 2017: VERY supportive due to former NaPro fellow's presence: Dr. Kyle Beiter. I felt very welcomed here. Would highly recommend looking into the place as Beiter has a good reputation. |
| NEW JERSEY | St. Barnabas Medical Center | Livingston | | | | | | | | 17.'18 Season. Non-religiously affiliated program. Called before applying to gauge receptiveness of program to NFP-only applicant. PD was apparently asked, and said that it would not be a good fit, as they do abortions. |
| NEW JERSEY | Rutgers Robert Wood Johnson Medical School Program | New Brunswick | | | | | | | | 17-'18 Season: PD said that they once had someone who did not perform tubal ligations and that since that person worked hard otherwise, they made it work as a program. Currently one resident there who does not perform terminations. However, another resident is passionate about expanding the family planning services offered and they are getting a new Chairperson who has a very strong background in reproductive medicine (egg and embryo donation, etc) who seems to share the same goal. |

| NEW YORK | South Nassau Communities Hospital | Oceanside | | | | | | | | 17-'18 Season: Asked by two separate interviewers whether I would prescribe birth control for "irregular periods". Not sure if it was their intention but that is the precise wording used by many Catholic hospitals to prescribe birth control without calling it birth control (this is not a religiously affiliated hospital, however). Their lack of manpower (very new program, currently increasing the number of residents to goal) makes me think that it would be hard for them to allow people to opt-out of performing certain procedures/writing certain prescriptions. |

PD went on to say that we do not respect religion enough in our society. However, considering the heavy Family Planning presence in that residency (they are currently trying to start a fellowship in it) and prior ignorance of NFP-only candidates, I am unsure how much of the answer was legal-protection vs. true sincerity. |

My guess is that they were not thrilled about the idea of an NFP-only applicant. '17-'18 Season: PD director seemed relatively comfortable with an NFP-only applicant. His assistant/right hand faculty member said that I was a great candidate and that she felt that it was important to be open-minded about things such as NFP-only applicants. | ОНЮ | Riverside Methodist Hospitals (OhioHealth) Program | Columbus | | | | | | | | 17-'18 Interview Season: Very open to NFP-only resident. PD stated that the only thing he couldn't accommodate was someone who wanted to do terminations after the 2nd trimester. |
| OHIO | Wright State Program | Dayton | 0 | 0 | 0 | 0 | 0 | | | 2016: Graduated 2 NFP-only military residents, most recently in 2014, but none since. Hospital does not do abortions, but they do sterilizations. '17-'18 Season: PD wasn't thrilled about NFP, but had a few prior colleagues so he was familiar and thought it would be "ok" |
| ОНЮ | University of Toledo | Toledo | | | | | | | | 17 - '18 Season: PD stated she thought it could work, but she didn't seem very sincere. However, she was recently removed. As this is my home institution, I was very close with the chair and he didn't think it would be a problem at all, very nice man, willing to work with you. I think the way this program operates and the residents would make it very hard to be NFP only here. Also there is talk of transgender surgeries in the next couple years, so possibility more moral dilemmas on the way. |
| ОНЮ | SUMMA Health Systems | Akron | | | | | | | | 2016: not a Catholic program, but their program director is Catholic and they have had many residents with a contentious objection to sterilizations in the past and were very open to the idea of a Catholic resident who didn't want to prescribe birth control or do sterilizations '17-'18 Season: PD seemed very open and comfortable with the idea of NFP only. |
| ОНЮ | U of Cincinnati | Cincinnati | | | | | | | | 2015: at least verbally open to an NFP-only candidate at interview. Excellent program all-around. 2017: I did an away rotation here so I knew everyone fairly well and bringing up NFP was still very uncomfortable. They stated that they accommodate this "all the time", but in my opinion this was just something they said for legal purposes. The program is very liberal. Even if you opt out of doing terminations you still have to physically go to Planned Parenthood on the FP (Family Planning) elective to counsel women. |

| OHIO | Ohio State University | Columbus | | | | | | | | |
| ОНЮ | Akron General Medical Center | Akron | | | | | | | | 17-'18 Season: PD said it would be "difficult" to accommodate and questioned why my home institution let me apply to this field. In my opinion, not a chance here. |

| PENNSYLVANIA | St. Lukes University Health Network | Bethlehem | | | 0 | 1 | 0 | 1 | | 17-'18 Season: There are 2 NFP-only residents here: a PGY1 and PGY3. They are well supported by the OBGYN department |
| PENNSYLVANIA | Reading Hospital and Medical Center | Reading | | | | | | | | 2010: "Not on staff in this program, and don't know director, but have just had a 3rd year OBGYN resident do an elective month with my group, who is in residency at Reading Hospital and Medical Center, Wyomissing, PA. It is a secular program, and the resident has been able to follow her conscience (no abortions, sterilizations, contraception) without undue hostility. Happy to provide contact info for the resident if she agrees and anyone interested." Mark Stegman MD FACOG |
| PENNSYLVANIA | U of Pittsburgh | Pittsburgh | 0 | 0 | 0 | | | | | 2015: Very pro-contraception. Termination and LARCs emphasized and important to training. NFP-only interviewee very politely told that decision not to prescribe was not compatible with what was considered mandatory. |

| TEXAS | U of Texas at Austin Dell Med Sch Program | Austin | | | 0 | 1 | 0 | 0 | | 2017: NFP-only resident likes the program, but the PD is now a family planning specialist; this program requires about a month at Planned Parenthood. there is an alternative month that the single NFP-only resident created, but has not been used since. |
| TEXAS | John Peter Smith Hospital Program | Fort Worth | | | | | | | | 2017: Very supportive of Family practice NFP residents who practice NaPro - would highly consider looking into it! 2015: Several NFP only FM residents as well as an OB resident in 2013. Very supportive. |

| TEXAS | TEXAS A&M | Temple | 0 | 0 | 0 | 0 | 0 | 0 | | 2016: open and friendly in interview process to specific questions about not prescribing contraceptives. No actual residents have been NFP only here. 2015: PD at the time was Catholic and very supportive. It hasn't been done in the past, but she said it could be arranged. |

| TEXAS | Methodist Hospital | Houston | | | | | | | | 2015: At least 2 NFP only docs have graduated from this program, in 2011 and 2013. Supportive and well aware of the path you would want to take. |
| TEXAS | Baylor College of Medicine | Houston | | | | | | | | 2015: NFP-only subintern offered an interview which was then never scheduled after that person asked about PD's opinion of trying to be NFP-only. Perception is that the program would not be friendly. 2015: Very malignant program. I was interrogated regarding my religious beliefs repeatedly and was very intimidated. The APD is the director of the largest Planned Parenthood in the US, which happens to be in Houston. |
| TEXAS | Baylor University Medical Center | Dallas | | | | | | | | 2015: PD open to "making it work" when asked about not prescribing contraceptives. No abortions in the hospital. Chair was possibly less friendly but now not the chair anymore. |
